

## **Senior Services**

In Monroe and Noble counties, our Community Action Senior Services Centers offer a welcoming place for residents 60 and older to share a meal, spend time with friends, and feel connected. We provide transportation for errands and appointments, and our medical escort program makes important visits easier to manage. Homemaker services support day-to-day needs at home, while both congregate meals and home-delivered meals help seniors stay healthy. We also have supportive services for help with forms, benefits, and local resources. Seniors can enjoy a full calendar of programs each month, including daily activities, social events, and group outings to places such as the Amish Country, the Black Walnut festival, local fairs, and other local attractions. We partner with community agencies to offer trainings, informational sessions, health-focused events, and special activities. Nutrition education, medical seminars, the Commodity Food Program, and Senior Farmers' Market applications are available as well.

All services are open to county residents aged 60 and older. Donations are welcome but never required, and no one is ever turned away. Our Senior Center locations:
